"pressurized pipe" means a line of perforated pipe that is intended to distribute effluent under pressure to soil or fill;

.

"shallow buried trench" means an excavation in soil or fill that contains a chamber;

.

"tertiary sewage treatment unit" means a sewage treatment unit that has been designed by its manufacturer to produce effluent that contains 10 milligrams per litre or less of total suspended solids and biological oxygen demand.

2. (1) Subsection 2 (1) of the Regulation is amended by adding the following paragraph:

- 10. Class 10—a sewage system located in the County of Essex, Kent or Lambton in which sewage is treated in a tertiary sewage treatment unit and then disposed of in a shallow buried trench.

(2) Subsection 2 (2) of the Regulation is amended by striking out "Class 4, 5 or 6" in the first line and substituting "Class 4, 5, 6 or 10".

3. The Regulation is amended by adding the following section:

CLASS 10 SEWAGE SYSTEMS

13.1 (1) A sewage system shall not use a shallow buried trench unless the system is a Class 10 sewage system.

(2) An applicant for a certificate of approval for a Class 10 sewage system shall submit with the application a certificate in a form acceptable to the Director and signed on behalf of the manufacturer of the sewage system's tertiary sewage treatment unit stating whether, in the opinion of the manufacturer, the unit is compatible with the intended use and overall design of the sewage system.

(3) A person shall not construct or operate a Class 10 sewage system except in accordance with the following standards:

- 1. The tertiary sewage treatment unit shall permit sampling of the effluent.
- 2. The sewage system shall have sufficient capacity for storing the total daily sewage flow multiplied by 1.75.
- 3. The storage capacity required by paragraph 2 shall be located so that it occurs before any effluent is disposed of in a shallow buried trench.
- 4. The tertiary sewage treatment unit shall not be located closer to an item set out in column 1 of Table 3 than the horizontal distance set out opposite to the item in column 2.
- 5. The sewage system shall contain an audible failure warning alarm located to warn occupants of the building served by the system of a malfunction in the operation of the tertiary sewage treatment unit.
- 6. A shallow buried trench shall not be located in or on soil or fill that has a percolation time of less than one minute or more than 125 minutes.
- 7. Every chamber shall be as wide as the shallow buried trench in which it is contained and the cross-section height of the chamber at its centre point shall not be less than one half the width of the trench.
- 8. A shallow buried trench shall not contain more than one pressurized pipe.
- 9. If the shallow buried trenches in the sewage system are located in or on soil or fill that has a percolation time of less than 50 minutes, the total length of the pressurized pipe in the sewage system shall be determined by the following formula:

$$L = Q \div 75$$

where,

L = the total length of the pressurized pipe in the sewage system, expressed in metres,

Q = the total daily sewage flow, expressed in litres.

10. If the shallow buried trenches in the sewage system are located in or on soil or fill that has a percolation time of 50 minutes or more, the total length of the pressurized pipe in the sewage system shall not be less than the greater of 30 metres and the length determined by the following formula:

$$L = Q \div 40$$

where,

L = the total length of the pressurized pipe in the sewage system, expressed in metres,

Q = the total daily sewage flow, expressed in litres.

11. Every pressurized pipe shall be at least 25 millimetres in diameter.
12. The orifices in every pressurized pipe shall be at least three millimetres in diameter and shall be equally spaced along the length of the pipe.
13. Every pressurized pipe shall be self-draining so as to prevent freezing of its contents.
14. A shallow buried trench shall not,
- i. be located in an area that has an average slope that exceeds one unit vertically to every four units horizontally,
 - ii. be located so that a pressurized pipe installed in the shallow buried trench is closer to an item set out in column 1 of Table 4 than the horizontal distance set out opposite the item in column 2,
 - iii. be located where the effluent from the shallow buried trench would cause impairment of the groundwater, or
 - iv. be located in or on an area subject to flooding that would be likely to cause,
 - A. damage to the shallow buried trench, or
 - B. impairment of the operation of the shallow buried trench that would, in turn, be likely to cause a public health nuisance.
15. Every shallow buried trench shall be approximately the same length and,
- i. shall not exceed 30 metres in length,
 - ii. shall be between 0.3 and 0.6 metres in depth,
 - iii. shall be at least 0.3 metres in width,
 - iv. shall be centred at least 1.6 metres apart,

- v. shall be set at an elevation so that the bottom of the trench is at all points at least,

A. 0.5 metres above the highest elevation at which there is physical evidence that the soil or fill has been saturated with water, and

B. 0.9 metres above the maximum elevation of rock, and

- vi. after installation of the chamber, shall be backfilled with porous soil or fill so as to ensure that, after the soil or fill settles, the surface of the shallow buried trench will not form any depressions.

16. A shallow buried trench shall not be constructed unless the soil or fill is sufficiently dry to resist compaction and smearing during excavation and shall not be constructed in a manner that causes compaction or smearing of the soil or fill.

(4) A person shall operate and maintain a Class 10 sewage system in accordance with the following standards:

1. The sewage system shall be operated and maintained in accordance with written material prepared by the manufacturer of the tertiary sewage treatment unit that provides a detailed description of the sewage system and complete instructions in relation to the operation, servicing and maintenance requirements of the sewage system and its related components.
2. The sewage system shall not be operated unless, before the issuance of a use permit for the sewage system, the manufacturer of the tertiary sewage treatment unit submitted to the Director a certificate in a form acceptable to the Director and signed on behalf of the manufacturer stating that the manufacturer or a person described in paragraph 3 was present at the site and observed the construction, installation, establishment, enlargement, extension or enlargement of the sewage system.
3. The sewage system shall be inspected at least once every 12 months by a person authorized by licence to service and maintain the tertiary sewage treatment unit or a person who, in the opinion of the Director, possesses the qualifications to service and maintain the unit.
4. Servicing and maintenance of the tertiary sewage treatment unit and its related components shall be carried out only by a person described in paragraph 3 who possesses the written material referred to in paragraph 1.
5. The sewage system shall not be operated unless there is a written agreement executed between the owner or operator of the sewage system and a person described in paragraph 3 that specifies the following:
 - i. Servicing and maintenance of the tertiary sewage treatment unit and its related components shall be carried out by a person described in paragraph 3.
 - ii. The owner or operator of the sewage system shall arrange with a person described in paragraph 3 for the sampling of effluent in accordance with the following rules:
 - A. The sample shall be collected from a location that follows the discharge of the effluent from the tertiary sewage treatment unit but is before the effluent enters the shallow buried trench.
 - B. The sample shall be a grab sample collected in accordance with the procedure described in the Ministry of Environment and Energy publication entitled "Protocol for the Sampling and Analysis of Industrial/

Municipal Wastewater" and dated August, 1994, as it may be amended from time to time.

C. The sample shall be obtained on one day in each 12 month period with an interval of no less than 11 months between successive samples.

D. The sample shall be analyzed for Total Suspended Solids (TSS), referred to as Analytical Test Group 8 in the Ministry of Environment and Energy publication entitled "Protocol for the Sampling and Analysis of Industrial/Municipal Wastewater" and dated August, 1994, as it may be amended from time to time.

E. The sample shall be analyzed for Biological Oxygen Demand (BOD), referred to as Analytical Test Group 1a in the Ministry of Environment and Energy publication entitled "Protocol for the Sampling and Analysis of Industrial/Municipal Wastewater" and dated August, 1994, as it may be amended from time to time.

iii. If the result of an analysis performed under sub-subparagraph D or E of subparagraph ii is that either or both parameters is greater than 10 milligrams per litre, the owner or operator of the sewage system shall arrange with the person described in paragraph 3 for the person described in paragraph 3 to assess the sewage system for the purpose of deter-

mining whether the sewage system is operating in accordance with its design.

iv. If the person described in paragraph 3 determines under subparagraph iii that the sewage system is not operating in accordance with its design, he or she shall report this determination to the Director immediately.

4. The heading to Table 3 of the Regulation is revoked and the following substituted:

CLEARANCES FOR CLASS 4, 6 AND 10 SEWAGE SYSTEMS

(Paragraph 9 of Subsection 10 (1), Paragraph 1 of Subsection 12 (1) and Paragraph 4 of Subsection 13.1 (3))

5. The heading to Table 4 of the Regulation is revoked and the following substituted:

PIPE CLEARANCES FOR CLASS 4 AND 10 SEWAGE SYSTEMS

(Subparagraph iii of Paragraph 1 of Subsection 10 (2), Subparagraph ix of Paragraph 5 of Subsection 10 (3) and Subparagraph ii of Paragraph 14 of Subsection 13.1 (3))

GENERAL

CONTRACTS OF INSURANCE

1. In this Regulation, "AgriCorp" includes a committee to which the board of directors of AgriCorp have, by by-law, delegated powers and duties.

2. (1) If an agreement has been entered into under section 3 of the Act in respect of an agricultural crop or perennial plant, a landlord or sharecropper of a farm in Ontario producing the crop or plant may apply for a contract of insurance.

(2) An application for insurance shall be in a form provided by AgriCorp.

3. (1) A contract of insurance consists of,

- (a) the application;
- (b) the renewal notice and change notice, if any;
- (c) the final acreage report or its equivalent;
- (d) the terms fixed by AgriCorp under section 5 of the Act; and
- (e) this Regulation.

(2) In the event of a conflict between the terms of a contract of insurance and this Regulation, this Regulation prevails.

4. (1) AgriCorp may amend the contract of insurance when renewing it.

(2) An insured person who receives notice of amendment to a contract of insurance when the contract is being renewed shall be deemed to have accepted the renewed contract, as amended, unless the person otherwise notifies AgriCorp within 15 days after receiving notice of the renewal and the amendment.

TERMS

5. (1) AgriCorp may refuse to enter into or may cancel a contract of insurance with an applicant or insured person who,

- (a) does not meet the necessary qualifications and requirements;
- (b) misrepresents or fails to disclose material information;
- (c) contravenes or fails to comply with the Act, this Regulation or a term of the contract of insurance; or
- (d) owes a debt to AgriCorp.

(2) If an insured person has coverage for two or more crops and AgriCorp cancels the coverage for one or more of the crops under subsection (1), AgriCorp may also cancel coverage for the other crops.

(3) If AgriCorp cancels coverage for a crop under subsection (1) or (2), the right of the insured person to recover indemnity for that crop is forfeited.

6. If an applicant or insured person fails to submit a final acreage report or its equivalent, fails to pay the full premium owing by the time required by contract or submits an inaccurate final acreage report or its equivalent, AgriCorp may,

- (a) refuse or cancel coverage on any or all of the crops applied for or insured and retain any premium deposits paid; or
- (b) otherwise obtain or deem the information required for the final report or its equivalent and decrease the guaranteed production by not more than 10 per cent.

7. A contract of insurance terminates at the end of the crop year in which the insured person dies, becomes insolvent or makes an authorized assignment in bankruptcy.

8. AgriCorp may determine the methods for determining yield, average farm yield, insurance price, coverage and guaranteed production and the coverage options from which an insured person may choose.

EXTENT OF INSURANCE

9. A contract of insurance does not insure against,

- (a) acreage not suitable for or adequately prepared for cropping purposes;
- (b) negligence, misconduct or farming practices that do not meet industry standards; or
- (c) a peril other than the perils fixed by AgriCorp for the insured crop under section 5 of the Act.

(2) Planting after or harvesting before a date determined under subsection (1) shall be deemed to fall under clause 9 (b).

SHARECROPPING AGREEMENTS

11. (1) The parties to a sharecropping agreement providing for sharing of profits or crop are eligible to enter into a contract of insurance in respect of that crop.

(2) Premiums are payable by the parties in the same proportion that they share the profits or crop.

12. (1) A replanting benefit is payable to only the sharecropper.

(2) The landlord's share of the premium is refundable only if the acreage is replanted to an uninsurable crop.

13. An unplanted acreage benefit is payable to only the landlord.

WAIVER OR ALTERATION

14. No term of a contract of insurance shall be deemed to be waived or altered by AgriCorp unless the waiver or alteration is given in writing.

15. An insured person may not amend the acreage declared on a final acreage report or its equivalent without the consent of AgriCorp.

16. No premium is refundable if the actual planted acreage is less than the planted acreage declared on the final acreage report or its equivalent.

NOTICE OF DAMAGE

19. If loss or damage to an insured crop occurs, the insured person shall not abandon, destroy or replant the acreage or use it for another purpose without the prior consent of AgriCorp.

20. If damage to an insured crop occurs at a readily ascertainable time, the insured person shall notify AgriCorp within five days after the time or within such shorter period as AgriCorp may determine for a particular insured crop or plant.

21. If damage to an insured crop occurs at any time after planting and before the completion of harvesting and it appears or ought reasonably to appear to an insured person that production may be reduced, the insured person shall notify AgriCorp forthwith.

22. If the actual production is less than the guaranteed production, the insured person shall notify AgriCorp within five days after the completion of harvesting.

CLAIMS

23. A claim for indemnity shall be made on a proof of loss form provided by AgriCorp and shall be filed with AgriCorp not later than 60 days after the insured crop was abandoned, destroyed, replanted or harvested.

24. AgriCorp may determine how claims will be adjusted.

25. The amount of indemnity shall be determined separately for each insured crop.

26. No indemnity shall be paid in respect of an insured crop unless the claimant establishes,

- (a) the actual production from the crop; and

- (b) that the loss in production resulted from one or more of the perils fixed by AgriCorp for the insured crop under section 5 of the Act.

27. AgriCorp may refuse to pay indemnity for loss or damage occurring before,

- (a) an application is made;
- (b) the final acreage report or its equivalent is submitted; and
- (c) the full premium is paid.

- a) le montant prévu dans la table applicable, selon le nombre d'enfants mineurs visés par l'ordonnance et le revenu du père, de la mère ou de l'époux faisant l'objet de la demande;
- b) le cas échéant, le montant déterminé en application de l'article 7.

Enfant majeur

(2) Sauf disposition contraire des présentes lignes directrices, le montant de l'ordonnance alimentaire à l'égard d'un enfant majeur visé par l'ordonnance est :

- a) le montant déterminé en application des présentes lignes directrices comme si l'enfant était mineur;
- b) si le tribunal est d'avis que cette approche n'est pas indiquée, tout montant qu'il juge indiqué compte tenu des ressources, des besoins et, d'une façon générale, de la situation de l'enfant, ainsi que de la capacité financière du père, de la mère ou de chaque époux de contribuer au soutien alimentaire de l'enfant.

Incomes over \$150,000

4. Where the income of the parent or spouse against whom an order for the support of a child is sought is over \$150,000, the amount of an order for the support of a child is,

- (a) the amount determined under section 3; or
- (b) if the court considers that amount to be inappropriate,
 - (i) in respect of the first \$150,000 of the parent's or spouse's income, the amount set out in the table for the number of children under the age of majority to whom the order relates,
 - (ii) in respect of the balance of the parent's or spouse's income, the amount that the court considers appropriate, having regard to the condition, means, needs and other circumstances of the children who are entitled to support and the financial ability of each parent or spouse to contribute to the support of the children, and
- (iii) the amount, if any, determined under section 7.

Spouse in place of a parent

5. Where the spouse against whom an order for the support of a child is sought stands in the place of a parent for a child or the parent is not a natural or adoptive parent of the child, the amount of the order is, in respect of that parent or spouse, such amount as the court considers appropriate, having regard to these guidelines and any other parent's legal duty to support the child.

Medical and dental insurance

6. In making an order for the support of a child, where medical or dental insurance coverage for the child is available to either parent or spouse through his or her employer or otherwise at a reasonable rate, the court may order that coverage be acquired or continued.

Special or extraordinary expenses

7. (1) In an order for the support of a child, the court may, on either spouse's request or on the request of an applicant under section 33 of the Act, provide for an amount to cover the following expenses, or any portion of those expenses, taking into account the necessity of the expense in relation to the child's best interests and the reasonableness of the expense, having regard to the means of the parents or spouses and those of the child and to the spending pattern of the parents or spouses in respect of the child during cohabitation:

- (a) child care expenses incurred as a result of the custodial parent's employment, illness, disability or education or training for employment;
- (b) that portion of the medical and dental insurance premiums attributable to the child;
- (c) health-related expenses that exceed insurance reimbursement by at least \$100 annually per illness or event, including orthodontic treatment, professional counselling provided by a psychologist, social worker, psychiatrist or any other person, physiotherapy, occupational therapy, speech therapy, prescription drugs, hearing aids, glasses and contact lenses;
- (d) extraordinary expenses for primary or secondary school education or for any educational programs that meet the child's particular needs;

Revenu supérieur à 150 000 \$

4. Lorsque le revenu du père, de la mère ou de l'époux faisant l'objet de la demande d'ordonnance alimentaire à l'égard d'un enfant est supérieur à 150 000 \$, le montant de l'ordonnance est le suivant :

- a) le montant déterminé en application de l'article 3;
- b) si le tribunal est d'avis que ce montant n'est pas indiqué :
 - (i) pour les premiers 150 000 \$, le montant prévu dans la table, selon le nombre d'enfants mineurs visés par l'ordonnance,
 - (ii) pour l'excédent, tout montant que le tribunal juge indiqué compte tenu des ressources, des besoins et, d'une façon générale, de la situation des enfants en cause, ainsi que de la capacité financière du père, de la mère ou de chaque époux de contribuer à leur soutien alimentaire,
- (iii) le cas échéant, le montant déterminé en application de l'article 7.

Époux tenant lieu de père ou de mère

5. Si l'époux faisant l'objet de la demande d'ordonnance alimentaire à l'égard d'un enfant tient lieu de père ou de mère à l'égard d'un enfant ou si le père ou la mère n'est pas le père ou la mère naturel ou adoptif de l'enfant, le montant de l'ordonnance pour ce père, cette mère ou cet époux est le montant que le tribunal juge indiqué compte tenu des présentes lignes directrices et de toute autre obligation légale qu'a un autre père ou mère pour le soutien alimentaire de l'enfant.

Assurance médicale et dentaire

6. En rendant l'ordonnance alimentaire à l'égard de l'enfant, le tribunal peut enjoindre au père ou à la mère ou à l'un des époux de contracter ou de maintenir une assurance médicale ou dentaire au profit de l'enfant, si une telle assurance est disponible par l'entremise de l'employeur du père, de la mère ou de l'époux ou autrement, à un taux raisonnable.

Dépenses spéciales ou extraordinaires

7. (1) Le tribunal peut, sur demande de l'un des époux ou sur demande de la personne qui présente une demande en vertu de l'article 33 de la Loi, prévoir dans l'ordonnance alimentaire à l'égard d'un enfant un montant pour couvrir tout ou partie des dépenses suivantes compte tenu de leur nécessité par rapport à l'intérêt de l'enfant et de leur caractère raisonnable par rapport aux ressources du père et de la mère ou des époux et aux ressources de l'enfant ainsi qu'aux habitudes de dépenses du père et de la mère ou des époux à l'égard de l'enfant pendant la cohabitation :

- a) les frais de garde de l'enfant engagés pour permettre au père ou à la mère en ayant la garde d'occuper un emploi, ou de poursuivre des études ou de recevoir de la formation en vue d'un emploi, ou engagés en raison d'une maladie ou d'une invalidité du père ou de la mère;
- b) la portion des primes d'assurance médicale et dentaire attribuable à l'enfant;
- c) les frais relatifs aux soins de santé dépassant d'au moins 100 \$ par année le montant que la compagnie d'assurance rembourse, par maladie ou événement, notamment les traitements orthodontiques, les consultations professionnelles d'un psychologue, d'un travailleur social, d'un psychiatre ou de toute autre personne, la physiothérapie, l'ergothérapie, l'orthophonie, les médicaments délivrés sur ordonnance, les prothèses auditives, les lunettes et les lentilles cornéennes;
- d) les frais extraordinaires relatifs aux études primaires ou secondaires ou à tout autre programme éducatif qui répond aux besoins particuliers de l'enfant;

- (e) expenses for post-secondary education; and
- (f) extraordinary expenses for extracurricular activities.

Sharing of expense

(2) The guiding principle in determining the amount of an expense referred to in subsection (1) is that the expense is shared by the parents or spouses in proportion to their respective incomes after deducting from the expense, the contribution, if any, from the child.

Subsidies, tax deductions, etc.

(3) In determining the amount of an expense referred to in subsection (1), the court must take into account any subsidies, benefits or income tax deductions or credits relating to the expense, and any eligibility to claim a subsidy, benefit or income tax deduction or credit relating to the expense.

Split custody

8. Where each parent or spouse has custody of one or more children, the amount of an order for the support of a child is the difference between the amount that each parent or spouse would otherwise pay if such an order were sought against each of the parents or spouses.

Shared custody

9. Where a parent or spouse exercises a right of access to, or has physical custody of, a child for not less than 40 per cent of the time over the course of a year, the amount of the order for the support of a child must be determined by taking into account

- (a) the amounts set out in the applicable tables for each of the parents or spouses;
- (b) the increased costs of shared custody arrangements; and
- (c) the condition, means, needs and other circumstances of each parent or spouse and of any child for whom support is sought.

Undue hardship

10. (1) On the application of either spouse or an applicant under section 33 of the Act, a court may award an amount of child support that is different from the amount determined under any of sections 3 to 5, 8 or 9 if the court finds that the parent or spouse making the request, or a child in respect of whom the request is made, would otherwise suffer undue hardship.

Circumstances that may cause undue hardship

(2) Circumstances that may cause a parent, spouse or child to suffer undue hardship include,

- (a) the parent or spouse has responsibility for an unusually high level of debts reasonably incurred to support the parents or spouses and their children during cohabitation or to earn a living;
- (b) the parent or spouse has unusually high expenses in relation to exercising access to a child;
- (c) the parent or spouse has a legal duty under a judgment, order or written separation agreement to support any person;
- (d) the spouse has a legal duty to support a child, other than a child of the marriage, who is
 - (i) under the age of majority, or
 - (ii) the age of majority or over but is unable, by reason of illness, disability or other cause, to obtain the necessities of life;

- e) les frais relatifs aux études postsecondaires;
- f) les frais extraordinaires relatifs aux activités parascolaires.

Partage des dépenses

(2) La détermination du montant des dépenses aux termes du paragraphe (1) procède du principe qu'elles sont partagées en proportion du revenu du père et de celui de la mère ou de chaque époux, déduction faite de la contribution fournie par l'enfant, le cas échéant.

Avantage, subvention, ou déduction ou crédit d'impôt

(3) Lorsqu'il calcule le montant des dépenses visées au paragraphe (1), le tribunal tient compte de tout avantage ou subvention, ou déduction ou crédit d'impôt, relatifs aux dépenses, ou de l'admissibilité à ceux-ci.

Garde exclusive

8. Si le père et la mère ou les deux époux ont chacun la garde d'un ou de plusieurs enfants, le montant de l'ordonnance alimentaire à l'égard d'un enfant est égal à la différence entre les montants que le père et la mère ou les époux auraient à payer si chacun d'eux faisait l'objet d'une demande d'ordonnance alimentaire à l'égard d'un enfant.

Garde partagée

9. Si le père ou la mère ou un époux exerce son droit d'accès auprès d'un enfant, ou en a la garde physique, pendant au moins 40 pour cent du temps au cours d'une année, le montant de l'ordonnance alimentaire à l'égard d'un enfant est déterminé compte tenu :

- a) des montants figurant dans les tables applicables à l'égard du père et de la mère ou de chaque époux;
- b) des coûts plus élevés associés à la garde partagée;
- c) des ressources, des besoins et, d'une façon générale, de la situation du père et de la mère ou de chaque époux et de tout enfant pour lequel des aliments sont demandés.

Difficultés excessives

10. (1) Le tribunal peut, sur demande de l'un des époux ou sur demande de la personne qui présente une demande en vertu de l'article 33 de la Loi, fixer comme montant de l'ordonnance alimentaire à l'égard d'un enfant un montant différent de celui qui serait déterminé en application des articles 3 à 5, 8 et 9, s'il conclut que, sans cette mesure, le père, la mère ou l'époux qui fait cette demande ou tout enfant visé par celle-ci éprouverait des difficultés excessives.

Exemples

(2) Des difficultés excessives peuvent résulter, notamment :

- a) des dettes anormalement élevées qui sont raisonnablement contractées par le père ou la mère ou un époux pour soutenir le père et la mère ou les époux et les enfants pendant la cohabitation ou pour gagner un revenu;
- b) des frais anormalement élevés liés à l'exercice par le père ou la mère ou un époux du droit d'accès auprès des enfants;
- c) des obligations légales du père ou de la mère ou d'un époux découlant d'un jugement, d'une ordonnance ou d'une entente de séparation écrite pour le soutien alimentaire de toute personne;
- d) des obligations légales d'un époux pour le soutien alimentaire d'un enfant, autre qu'un enfant à charge, qui :
 - (i) n'est pas majeur,
 - (ii) est majeur, sans pouvoir, pour cause notamment de maladie ou d'invalidité, subvenir à ses propres besoins;

- (e) the parent has a legal duty to support a child, other than the child who is the subject of this application, who is under the age of majority or who is enrolled in a full time course of education;
- (f) the parent or spouse has a legal duty to support any person who is unable to obtain the necessities of life due to an illness or disability.

Standards of living must be considered

(3) Despite a determination of undue hardship under subsection (1), an application under that subsection must be denied by the court if it is of the opinion that the household of the parent or spouse who claims undue hardship would, after determining the amount of child support under any of sections 3 to 5, 8 or 9, have a higher standard of living than the household of the other parent or spouse.

Standards of living test

(4) In comparing standards of living for the purpose of subsection (3), the court may use the comparison of household standards of living test set out in Schedule II.

Reasonable time

(5) Where the court awards a different amount of child support under subsection (1), it may specify, in the order for child support, a reasonable time for the satisfaction of any obligation arising from circumstances that cause undue hardship and the amount payable at the end of that time.

Reasons

(6) Where the court makes an order for the support of a child in a different amount under this section, it must record its reasons for doing so.

ELEMENTS OF AN ORDER FOR THE SUPPORT OF A CHILD

Form of payments

11. Where these guidelines apply to orders made under the *Divorce Act* (Canada), section 34 of the Act applies.

Security

12. The court may require in the order for the support of a child that the amount payable under the order be paid or secured, or paid and secured, in the manner specified in the order.

Information to be specified in order

13. An order for the support of a child must include,

- (a) the name and birth date of each child to whom the order relates;
- (b) the income of any parent or spouse whose income is used to determine the amount of the order;
- (c) the amount determined under clause 3 (1) (a) for the number of children to whom the order relates;
- (d) the amount determined under clause 3 (2) (b) for a child the age of majority or over;
- (e) the particulars of any expense described in subsection 7 (1), the child to whom the expense relates and the amount of the expense or, where that amount cannot be determined, the proportion to be paid in relation to the expense; and
- (f) the date on which the lump sum or first payment is payable and the day of the month or other time period on which all subsequent payments are to be made.

- e) des obligations légales du père ou de la mère pour le soutien alimentaire d'un enfant, autre qu'un enfant qui fait l'objet de cette demande, qui n'est pas majeur ou qui est inscrit à un programme d'études à temps plein;
- f) des obligations légales du père ou de la mère ou d'un époux pour le soutien alimentaire de toute personne qui ne peut subvenir à ses propres besoins pour cause de maladie ou d'invalidité.

Niveaux de vie

(3) Même s'il conclut à l'existence de difficultés excessives, le tribunal doit rejeter la demande faite en application du paragraphe (1) s'il est d'avis que le ménage du père ou de la mère ou de l'époux qui les invoque aurait, par suite de la détermination du montant de l'ordonnance alimentaire à l'égard d'un enfant en application des articles 3 à 5, 8 et 9, un niveau de vie plus élevé que celui du ménage de l'autre partie ou époux.

Méthode de comparaison des niveaux de vie

(4) Afin de comparer les niveaux de vie des ménages visés au paragraphe (3), le tribunal peut utiliser la méthode prévue à l'annexe II.

Période raisonnable

(5) S'il rajuste le montant de l'ordonnance alimentaire à l'égard d'un enfant en vertu du paragraphe, (1), le tribunal peut, dans l'ordonnance, prévoir une période raisonnable pour permettre à l'époux de satisfaire les obligations qui causent des difficultés excessives et fixer le montant de celle-ci à l'expiration de cette période.

Motifs

(6) Le tribunal doit enregistrer les motifs de sa décision de rajuster le montant de l'ordonnance alimentaire à l'égard d'un enfant en vertu du présent article.

ÉLÉMENTS DE L'ORDONNANCE ALIMENTAIRE À L'ÉGARD D'UN ENFANT

VARIATION OF ORDERS FOR THE SUPPORT OF A CHILD

Circumstances for variation

14. For the purposes of subsection 37 (2.2) of the Act and subsection 17 (4) of the *Divorce Act* (Canada), any one of the following constitutes a change of circumstances:

1. In the case where the amount of child support includes a determination made in accordance with the table, any change in circumstances that would result in a different order for the support of a child or any provision thereof.
2. In the case where the amount of child support does not include a determination made in accordance with a table, any change in the condition, means, needs or other circumstances of either parent or spouse or of any child who is entitled to support.

INCOME

Determination of annual income

15. (1) Subject to subsection (2), a parent's or spouse's annual income is determined by the court in accordance with sections 16 to 20.

Agreement

(2) Where both parents or spouses agree in writing on the annual income of a parent or spouse, the court may consider that amount to be the parent's or spouse's income for the purposes of these guidelines if the court thinks that the amount is reasonable having regard to the income information provided under section 21.

Calculation of annual income

16. Subject to sections 17 to 20, a parent's or spouse's annual income is determined using the sources of income set out under the heading "Total income" in the T1 General form issued by Revenue Canada and is adjusted in accordance with Schedule III.

Pattern of income

17. (1) Where the court is of the opinion that the determination of a parent's or spouse's annual income from a source of income under section 16 would not provide the fairest determination of the annual income from that source, the court may determine the annual income from that source,

- (a) where the amount in respect of the source of income has increased in each of the three most recent taxation years or has decreased in each of those three years, to be the amount from that source of income in the parent's or spouse's most recent taxation year;
- (b) where the amount in respect of the source of income has not increased or decreased as described in clause (a), to be the average of the amount received by the parent or spouse from that source of income in the three most recent taxation years, or such other amount, if any, that the court considers appropriate; or
- (c) where the parent or spouse has received a non-recurring amount in any of the three most recent taxation years, to be such portion of the amount as the court considers appropriate, if any.

MODIFICATION DE L'ORDONNANCE ALIMENTAIRE À L'ÉGARD D'UN ENFANT

Changements de situation

14. L'un ou l'autre des changements suivants constitue un changement de situation pour l'application du paragraphe 37 (2.2) de la Loi et du paragraphe 17 (4) de la *Loi sur le divorce* (Canada) :

1. Dans le cas d'une ordonnance alimentaire à l'égard d'un enfant dont tout ou partie du montant a été déterminé selon la table, tout changement qui amènerait une modification de l'ordonnance ou de telle de ses dispositions.
2. Dans le cas d'une ordonnance alimentaire à l'égard d'un enfant dont le montant n'a pas été déterminé selon une table, tout changement dans les ressources, les besoins ou, d'une façon générale, dans la situation du père ou de la mère ou de l'un ou l'autre des époux ou de tout enfant ayant droit aux aliments.
3. Dans le cas d'une ordonnance rendue en vertu de la *Loi sur le divorce* (Canada) avant le 1^{er} mai 1997, l'entrée en vigueur de l'article 15.1 de cette loi, édicté par l'article 2 du chapitre 1 des Lois du Canada (1997).
4. Dans le cas d'une ordonnance rendue en vertu de la Loi, l'entrée en vigueur du paragraphe 33 (11) de la Loi.

REVENU

Détermination du revenu annuel

15. (1) Sous réserve du paragraphe (2), le revenu annuel du père ou de la mère ou de l'époux est déterminé par le tribunal conformément aux articles 16 à 20.

Entente

(2) Si le père et la mère ou les époux s'entendent, par écrit, sur le revenu annuel de l'un d'eux, le tribunal peut, s'il juge que ce montant est raisonnable compte tenu des renseignements fournis en application de l'article 21, considérer ce montant comme le revenu du père ou de la mère ou de l'époux pour l'application des présentes lignes directrices.

Calcul du revenu annuel

16. Sous réserve des articles 17 à 20, le revenu annuel du père ou de la mère ou de l'époux est déterminé en utilisant les sources de revenu figurant sous la rubrique «Revenu total» dans la formule T1 Générale établie par Revenu Canada, et est rajusté conformément à l'annexe III.

Tendance du revenu

17. (1) Si le tribunal est d'avis que la détermination du revenu annuel d'une source de revenu du père ou de la mère ou de l'époux en application de l'article 16 ne correspond pas à la détermination la plus équitable, il peut rajuster le montant provenant de cette source comme suit :

- a) si un montant provenant de cette source a connu une tendance à la hausse ou à la baisse au cours des trois dernières années d'imposition, en prenant le montant de la dernière année;
- b) s'il n'y a pas eu une telle tendance à la hausse ou à la baisse, en calculant la moyenne des montants provenant de cette source pour les trois dernières années d'imposition ou en fixant tout autre montant qu'il juge indiqué, lequel peut être égal à zéro;
- c) si le père ou la mère ou l'époux a reçu un montant non récurrent pour l'une des trois dernières années d'imposition, en prenant la fraction de ce montant qu'il juge indiquée, laquelle peut être égale à zéro.

Non-recurring losses

(2) Where a parent or spouse has incurred a non-recurring capital or business investment loss, the court may, if it is of the opinion that the determination of the parent's or spouse's annual income under section 16 would not provide the fairest determination of the annual income, choose not to apply sections 6 and 7 of Schedule III, and adjust the amount of the loss, including related expenses and carrying charges and interest expenses, to arrive at such amount as the court considers appropriate.

Shareholder, director or officer

18. (1) Where a parent or spouse is a shareholder, director or officer of a corporation and the court is of the opinion that the amount of the parent's or spouse's annual income as determined under section 16 does not fairly reflect all the money available to the parent or spouse for the payment of child support, the court may consider the situations described in section 17 and determine the parent's or spouse's annual income to include,

- (a) all or part of the pre-tax income of the corporation, and of any corporation that is related to that corporation, for the most recent taxation year; or
- (b) an amount commensurate with the services that the parent or spouse provides to the corporation, provided that the amount does not exceed the corporation's pre-tax income.

Adjustment to corporation's pre-tax income

(2) In determining the pre-tax income of a corporation for the purposes of subsection (1), all amounts paid by the corporation as salaries, wages or management fees, or other payments or benefits, to or on behalf of persons with whom the corporation does not deal at arm's length must be added to the pre-tax income, unless the parent or spouse establishes that the payments were reasonable in the circumstances.

Imputing income

19. (1) The court may impute such amount of income to a parent or spouse as it considers appropriate in the circumstances, which circumstances include,

- (a) the parent or spouse is intentionally under-employed or unemployed, other than where the under-employment or unemployment is required by the needs of any child or by the reasonable educational or health needs of the parent or spouse;
- (b) the parent or spouse is exempt from paying federal or provincial income tax;
- (c) the parent or spouse lives in a country that has effective rates of income tax that are significantly lower than those in Canada;
- (d) it appears that income has been diverted which would affect the level of child support to be determined under these guidelines;
- (e) the parent's or spouse's property is not reasonably utilized to generate income;
- (f) the parent or spouse has failed to provide income information when under a legal obligation to do so;
- (g) the parent or spouse unreasonably deducts expenses from income;
- (h) the parent or spouse derives a significant portion of income from dividends, capital gains or other sources that are taxed at a lower rate than employment or business income; and

Pertes non récurrentes

(2) Si le père ou la mère ou l'époux a subi une perte en capital ou une perte au titre de placements d'entreprise non récurrentes, le tribunal peut, s'il est d'avis que la détermination du revenu annuel du père ou de la mère ou de l'époux en application de l'article 16 ne correspond pas à la détermination la plus équitable, rajuster le montant de la perte, y compris les dépenses y afférentes et les frais financiers et frais d'intérêt, de la façon qu'il juge indiquée, au lieu de le faire en application des articles 6 ou 7 de l'annexe III.

Actionnaires, administrateurs ou dirigeants

18. (1) Si le père ou la mère ou l'époux est un actionnaire, administrateur ou dirigeant d'une société, le tribunal peut, s'il est d'avis que son revenu annuel déterminé conformément à l'article 16 ne correspond pas fidèlement aux sommes disponibles pour verser des aliments pour les enfants, tenir compte des situations visées à l'article 17 et inclure dans le revenu annuel :

- a) soit tout ou partie du montant de profit avant impôt de la société, et de toutes autres sociétés avec lesquelles elle est liée, pour la dernière année d'imposition;
- b) soit un montant correspondant à la valeur des services qu'il fournit à la société, jusqu'à concurrence du montant de profit avant impôt de celle-ci.

Rajustement du profit avant impôt

(2) Aux fins de la détermination du profit avant impôt d'une société en application du paragraphe (1), les montants qu'elle paie, au titre notamment des salaires, rémunérations, frais de gestion ou avantages, aux personnes avec lesquelles elle a un lien de dépendance, ou au nom de celles-ci, sont ajoutés au profit avant impôt de la société, à moins que le père ou la mère ou l'époux n'établisse qu'ils sont raisonnables dans les circonstances.

Attribution de revenu

19. (1) Le tribunal peut attribuer au père ou à la mère ou à l'époux le montant de revenu qu'il juge indiqué, notamment dans les cas suivants :

- a) cette personne a choisi de ne pas travailler ou d'être sous-employée, sauf si elle a fait un tel choix lorsque l'exigent les besoins de tout enfant ou des circonstances raisonnables liées à sa santé ou la poursuite d'études par elle;

- c) cette personne vit dans un pays où les taux d'imposition effectifs sont considérablement inférieurs à ceux en vigueur au Canada;

- f) cette personne n'a pas fourni les renseignements sur le revenu qu'elle est légalement tenue de fournir;

Schedule I

(Subsection 2 (1))

CHILD SUPPORT TABLE FOR ONTARIO**Notes:**

1. The child support table for Ontario sets out the amount of monthly child support payments for Ontario on the basis of the annual income of the parent or spouse ordered to pay child support (the "support payor") and the number of children for whom a table amount is payable. Refer to these guidelines to determine whether special measures apply.
2. There is a threshold level of income below which no amount of child support is payable. Child support amounts are specified for incomes up to \$150,000 per year. Refer to section 4 of these guidelines to determine the amount of child support payments for support payors with annual incomes over \$150,000.
3. Income is set out in the tables in intervals of \$1,000. Monthly amounts are determined by adding the basic amount and the amount calculated by multiplying the applicable percentage by the portion of the income that exceeds the lower amount within that interval of income.

Annexe I

(Paragraphe 2 (1))

TABLE DE L'ONTARIO DES ALIMENTS POUR LES ENFANTS**Notes :**

1. La Table de l'Ontario des aliments pour les enfants fixe, pour l'Ontario, le paiement mensuel d'aliments, selon le revenu du père, de la mère ou de l'époux tenu de verser ceux-ci (le «payeur») et le nombre d'enfants en cause. Reportez-vous aux présentes lignes directrices pour savoir si des mesures spéciales s'appliquent.
2. La table prévoit les revenus annuels minimal et maximal du payeur sur lesquels se fonde la détermination du montant des aliments selon le nombre d'enfants. Pour les payeurs dont le revenu dépasse 150 000 \$, reportez-vous à l'article 4 des présentes lignes directrices pour déterminer le montant des aliments.
3. Le revenu est indiqué par tranche de 1 000 \$. Le paiement mensuel est déterminé par addition du montant de base applicable et le montant calculé en multipliant la fraction de revenu qui excède le montant inférieur de la tranche de revenu applicable par le pourcentage indiqué.

4. The amounts in the tables are based on economic studies of average spending on children in families at different income levels in Canada. They are calculated on the basis that child support payments are no longer taxable in the hands of the receiving parent and no longer deductible by the paying parent. They are calculated using a mathematical formula and generated by a computer program.
 5. The formula referred to in note 4 sets support amounts to reflect average expenditures on children by a parent or spouse with a particular number of children and level of income. The calculation is based on the support payor's income. The formula uses the basic personal amount for non-refundable tax credits to recognize personal expenses, and takes other federal and provincial income taxes and credits into account. Federal Child Tax benefits and Goods and Services Tax credits for children are excluded from the calculation. At lower income levels, the formula sets the amounts to take into account the combined impact of taxes and child support payments on the support payor's limited disposable income.
4. Les montants figurant dans les tables reposent sur des études économiques sur ce qu'il en coûte pour élever des enfants dans des familles à divers niveaux de revenu au Canada. Ils ont été calculés compte tenu du fait que les aliments reçus ne sont plus imposables et que ceux payés ne sont plus déductibles. Ils ont été calculés selon une formule mathématique et produits au moyen d'un programme informatique.
 5. La formule permet d'établir des montants d'aliments qui tiennent compte de la dépense moyenne que représente un enfant pour un père, une mère ou un époux avec un nombre d'enfants et un revenu donnés. Le calcul se fonde sur le revenu du payeur. Elle tient compte du crédit d'impôt non remboursable au titre du montant personnel de base pour reconnaître les dépenses personnelles. Elle tient également compte d'autres taxes et crédits fédéraux et provinciaux sur le revenu. Les prestations fiscales fédérales pour enfants et le crédit pour la taxe sur les produits et services sont exclus du calcul. Pour les revenus annuels moins élevés, la formule permet d'établir le montant sans perdre de vue l'incidence combinée des impôts et des paiements d'aliments pour les enfants sur le revenu disponible limité dont dispose le payeur.

Méthode

2. La méthode de comparaison des niveaux de vie des ménages est la suivante :

ÉTAPE 1

Établir, pour chaque ménage, le revenu annuel de toutes les personnes du ménage selon la formule suivante :

$$A - B$$

où :

- A représente le revenu de la personne, déterminé conformément aux articles 15 à 20 des présentes lignes directrices;
- B les impôts fédéral et provincial payables sur le revenu imposable de la personne.

Le tribunal peut, si les renseignements sur le revenu ne lui sont pas fournis, attribuer à la personne le montant de revenu qu’il juge indiqué.

ÉTAPE 2

Rajuster le revenu annuel de chaque personne du ménage par :

- a) déduction des montants suivants, calculés sur une base annuelle, déduction faite de l’impôt établi selon son taux d’imposition moyen :

- (i) any amount relied on by the court as a factor that resulted in a determination of undue hardship,
 - (ii) the amount that would otherwise be payable by the person under these guidelines if the pleading of undue hardship was not made, and

- (i) the amount that would otherwise be receivable by the person under these guidelines if the pleading of undue hardship was not made, and
 - (ii) any amount of child support that the person has received for any child under a judgment, order or written separation agreement.

STEP 3

Add the amounts of adjusted annual income for all the persons in each household to determine the total household income for each household.

STEP 4

Determine the applicable low-income measures amount for each household based on the following:

Low-income Measures

Six persons 6 adults 5 adults and 1 child 4 adults and 2 children 3 adults and 3 children 2 adults and 4 children 1 adult and 5 children	\$31,145 30,108 29,070 28,031 26,993 26,993

- (i) le montant sur lequel se fonde le tribunal pour établir l'existence de difficultés excessives,
 - (ii) le montant de l'ordonnance alimentaire qui serait payable par la personne en vertu des présentes lignes directrices, n'eût été de la demande pour difficultés excessives,
 - (iii) le montant de soutien alimentaire qui est payé par la personne et qui découle d'un jugement, d'une ordonnance ou d'une entente de séparation écrite, sauf s'il a été déduit en application du sous-alinéa (i);
- b) addition des montants suivants, calculés sur une base annuelle :
- (i) le montant de l'ordonnance alimentaire auquel la personne aurait droit en vertu des présentes lignes directrices, n'eût été de la demande pour difficultés excessives,

ÉTAPE 3

Déterminer le revenu de chaque ménage par addition des revenus annuels rajustés de toutes les personnes du ménage.

ÉTAPE 4

Déterminer, pour chaque ménage, la mesure de faible revenu selon le tableau suivant :

Tableau de mesures de faible revenu

Professional Fees Guideline - Physiotherapists

This guideline is issued pursuant to Subsections 14 (4), 15 (6), 17 (2) and 24 (2) of the *Statutory Accident Benefits Schedule - Accidents on or After November 1, 1996* (SABS) and applies to expenses incurred on or after November 22, 1997.

Purpose

This guideline sets out the maximum rate or amount of expenses for the services of a physiotherapist that an insurer is liable to pay for:

- a medical benefit under Subsections 14 (2) (b) or (h) of the SABS;
- a rehabilitation benefit under Subsections 15 (5) (a) to (g) or 15 (5) (l) of the SABS; or
- conducting an examination or assessment or providing a certificate, report or treatment plan under Subsection 24 (1) (a) of the SABS.

Fees for Physiotherapists

The range of fees for services provided by physiotherapists is \$95.00 per hour to \$120.00 per hour for direct (one on one) treatment time (including administrative time such as report writing, treatment plan preparation, inter-professional and professional-insurer consultations).

The range of fees per unit (15 minutes) of service is \$23.75 to \$30.00.

Where a physiotherapist's bill falls within the range of fees, it should be based on the physiotherapist's assessment of their practice outcomes and on objective and verifiable data, not on overhead, professional certification, accreditation or other factors.

Physiotherapy Utilization Guidelines for Soft Tissue Disorders of the Spine

Where applicable, physiotherapists and insurers should consider the clinical intervention and duration of treatment set out in the Physiotherapy Utilization Guidelines for Soft Tissue Disorders of the Spine that were published in THE ONTARIO GAZETTE on November 22, 1997 pursuant to Section 268.3 of the *Insurance Act*.

Physiotherapy Utilization Guidelines for Soft Tissue Disorders of the Spine

COMMISSIONER'S GUIDELINE No. 2/97

Part 1: Introduction

These guidelines are issued pursuant to Section 268.3 of the *Insurance Act*.

These guidelines apply to all accidents occurring on or after November 22, 1997 and are intended to help insurers, claimants and providers understand what services should be provided by a physio-

therapist for a person who has sustained a soft tissue disorder of the spine in an auto accident. These guidelines are not to be used to dictate treatment in any particular case. The purpose of the guidelines is to guide and to help distinguish exceptional cases, or to trigger special consideration.

I. Preamble

The keys to the management of soft tissue injuries are early access to assessment and cost effective treatment. To ensure expedient management of the injured person and timely return to normal activities, including work, it is imperative to engage in a coordinated approach using effective channels of communication with all stakeholders. The model presented in Part 3 of this document reflects the recommended physiotherapy interventions and utilization, including costs for typical spinal soft tissue injuries. These utilization guidelines are meant to be used in conjunction with the *Professional Fee Guideline - Physiotherapists*, as published in THE ONTARIO GAZETTE, which defines a unit billing system with a maximum billing rate based on a unit of 15 minutes of direct physiotherapist time.

The critical element of these guidelines is that they are assessment-driven. Their purpose is to identify the reasonable and necessary level of care for a patient's recovery as defined by a return to pre-accident or pre-injury status, or where that is not possible, the highest reasonably attainable level of physical function. Essential in the development of these guidelines is the consideration of the most current literature as well as sound clinical expertise (*or consensus*). It is also essential that all parties clearly understand the purpose of practice guidelines as well as their limitations.

II. Whiplash Associated Disorders

Whiplash is an acceleration-deceleration mechanism of energy transfer to the neck. It may be caused by rear-end or side-impact motor vehicle collisions. The impact may result in bony or soft-tissue injuries, which in turn may lead to a variety of clinical manifestations ('Whiplash Associated Disorders'). Because of their evidence-based content, practicality and widespread use, it makes sense to adopt the classifications of the Quebec Task Force (QTF) on Whiplash Associated Disorders (WAD). These are as follows:

WAD I: Neck complaint of pain, stiffness or tenderness only. No physical sign(s)

WAD II: Neck complaint of pain AND musculoskeletal sign(s) which include decreased range of motion and point tenderness

WAD III: Neck complaints of pain AND neurological signs which include decreased or absent deep tendon reflexes, weakness and sensory deficits

WAD IV: Neck complaints of pain AND fracture or dislocation

Because WAD Grades I, II and III are the most commonly seen in outpatient physiotherapy practices, these utilization guidelines only address Grades I, II and III.

III. Low Back Conditions

The concepts outlined by the Agency for Health Care Policy Research (AHCPR) in its Clinical Practice Guidelines on Acute Low Back Problems and the United Kingdom Guidelines have been integrated into our treatment guidelines for the management of low back injuries. These guidelines are for acute low back pain (i.e. conditions of less than three months' duration) and can be classified as either:

1. Non-specific back symptoms - back pain occurring mainly in the back and suggesting neither nerve root compromise nor a serious underlying pathology; and
2. Sciatica - low back related lower limb symptoms suggesting lumbosacral nerve root compromise, e.g. neurological signs which include decreased or absent deep tendon reflexes, weakness and sensory deficits.

Part 2: Background

I. Treatment Guidelines

The clinical management of both WAD and low back conditions involves three main components: reassurance, timely return to normal activities, and pain management. These concepts form the basis for clinical interventions at each phase of recovery: acute, subacute, and chronic/ rehabilitation. It is expected that the interventions outlined in each phase will result in the injured person's return to normal activities, where reasonably possible, and at the same time reduce/manage their symptoms. The treatment guidelines in the acute and subacute phase apply to those that have returned to work following a motor vehicle accident as well as to those who remain off work. For both these patient groups the treatment intervention should be similar, except for the vigorous promotion of an early return to work for the non-working patient. In the third phase of treatment it is necessary to separate the working from the non-working group due to significant differences in their treatment needs.

Should an injured person not be successful in returning to normal activities after the acute phase of treatment there should be consultation with and agreement by the insurance company prior to the initiation of the second treatment phase. In the event that a patient is unsuccessful in returning to pre-accident activities after the sub-acute phase (e.g. the disability still exists) a comprehensive evaluation should occur. If physical limitations are preventing a return to work/activities, a functional capacity evaluation is recommended. Depending on the presence of other barriers the appropriate Independent Examination (IE) should be considered. Lastly, if a disability persists following the chronic rehabilitation phase a comprehensive assessment is strongly recommended prior to the continuation or introduction of treatment.

II. Indicators of Delayed Recovery

The factors listed in the table below are indicators of delayed recovery for Whiplash Associated Disorders. These are useful tools to help determine which patients are at a higher risk of slower recovery. Patients with expected slower recovery may require longer and more aggressive treatment.¹

Demographics	Accident History	Medical History
1. Female 2. Older Age 3. Two or more dependents 4. Married/ Cohabital	1. Collision with fatality severe injury 2. Collision other than rear-ended 3. Vehicle other than a car or taxi	1. Multiple injuries 2. Finger paraesthesia 3. Pre-trauma headache with concurrent neck pain 4. Presence of musculo-skeletal signs within three days of MVA

For low back conditions the following table outlines the *Red Flags* which may indicate delayed recovery times.² Unfortunately, indicators for delayed recovery do not exist for low back injuries caused by motor vehicle accidents.

¹WAD Guidelines.

²Agency for Health Care Policy and Research, December 1994, *AHCPR Clinical Practice Guidelines for Acute Low Back Problems* (Consumer Version), Rockville, MD: U.S. Department of Health and Human Services.

Demographics	Accident History	Pathology
1. Age of onset < 20 years or > 55 years	1. Violent trauma 2. Constant, progressive non-mechanical pain 3. Past medical history of carcinoma 4. Systemic steroids 5. Drug abuse 6. Systematically unwell 7. Weight loss 8. Persisting severe restriction of lumbar flexion 9. Widespread neurology 10. Thoracic pain	1. Fracture 2. Tumour 3. Infection 4. Cauda Equina Syndrome 5. Non-spinal pathology (vascular, abdominal, urinary or pelvic)

III. Assumptions

The following assumptions are made for the Physiotherapy Utilization Guidelines which follow in Part 3.

- A comprehensive initial assessment, meeting the standards established by the College of Physiotherapists of Ontario, must be completed on all clients before an appropriate treatment program can be designed and implemented.
- Clinical interventions noted are not intended to be an all inclusive list.
- The Duration of Treatment in each phase is presented as characteristic and may vary from one practice to another and from one client to another. The total costs however, in the absence of indicators of delayed recovery are not expected to exceed the ranges provided.
- The time frames for the acute, sub-acute and chronic phases (e.g. Acute Phase 0 - 6 weeks) refer to the elapsed time since injury and are based on normal soft-tissue healing times. **All patients may not progress through each treatment phase.**

IV. Definitions

Pain Control: components may include a variety of techniques ranging from the application of physical modalities such as ice, heat, ultrasound or electrical stimulation and a regimen of mobilization or manipulation. These techniques should each be used in combination with the implementation of appropriate range of motion and other types of mobility exercises all of which have, as their key aim the control of pain symptoms.

Injury Specific Exercise/Education: components may include: instructing clients on avoiding further injury and facilitating their own recovery, emphasizing long-term self-directed management based on exercise and lifestyle changes; teaching patients to perform functional activities or activities of daily living; and exercise designed specifically to address the impairment.

Work Conditioning: an intensive, goal-oriented treatment program designed to restore an individual's systemic, neurological, musculo-skeletal (strength, endurance, movement flexibility and motor control) and cardiopulmonary functions. The objective of the program is to restore the clients physical capacity and function so the client can return to work and/or their usual activities.

Work Hardening: work hardening uses real or simulated activities to progressively improve the injured person's ability to return to work, in conjunction with physical conditioning tasks. Work hardening is highly structured, goal-oriented and individualized and provides a transition between acute care and return to work while addressing the issue of productivity, safety, physical tolerances and work behaviours. A distinction can be made between clinic-based work hardening that simulates jobs, and employer based work hardening that facilitates work adjustment.

Work Preparation Activities: the simulation of work activities to progressively improve the injured clients' ability to return to work, in conjunction with physical conditioning tasks.

Chronic Pain Management: a functional and behavioural approach to the management of chronic pain.

Ligne directrice concernant les honoraires professionnels en physiothérapie

La présente ligne directrice, émise conformément aux paragraphes 14(4), 15(6), 17(2) et 24(2) de l'*Annexe sur les indemnités d'accident légales - accidents survenus le 1^{er} novembre 1996 ou par la suite*, concerne les dépenses engagées à compter du 22 novembre 1997.

But

La présente ligne directrice fixe le plafond des honoraires ou des dépenses qu'un assureur est tenu de rembourser en ce qui concerne les services de physiothérapie fournis :

- soit à titre de soins médicaux, conformément aux alinéas 14(2) b) ou h) de l'*Annexe*;
- soit à titre de soins de réadaptation, conformément aux alinéas 15(5) a) à g) ou 15(5) l) de l'*Annexe*;
- soit à titre d'examen ou d'évaluation, ou encore en vue de fournir une attestation, un rapport ou un programme de traitement, conformément à l'alinéa 24(1) a) de l'*Annexe*.

Honoraires des physiothérapeutes

Les honoraires des physiothérapeutes se situent entre 95 et 120 \$ pour une heure d'intervention consacrée directement et exclusivement à une seule et même personne (y compris la durée des tâches administratives telles que la rédaction de rapports, la préparation des programmes de traitement et la consultation d'autres spécialistes ou de l'assureur).

Les honoraires par unité d'intervention (15 minutes) se situent entre 23,75 et 30 \$.

Lorsque les honoraires d'un(e) physiothérapeute se situent dans la fourchette indiquée ci-dessus, la facture présentée par celui-ci ou celle-ci devrait être établie en fonction de son évaluation des résultats obtenus par le cabinet et de données objectives et vérifiables et non pas en fonction des frais généraux, de l'attestation professionnelle, de l'accréditation ou de tout autre facteur.

Lignes directrices concernant le recours à la physiothérapie en vue de la récupération fonctionnelle des tissus mous de la colonne vertébrale

Les physiothérapeutes et les assureurs devraient, le cas échéant, tenir compte des renseignements sur les interventions cliniques et la durée des traitements indiqués dans les *Lignes directrices concernant le recours à la physiothérapie en vue de la récupération fonctionnelle des tissus mous de la colonne vertébrale*, qui ont été publiées dans la *Gazette de l'Ontario* le 22 novembre 1997 conformément à l'article 268.3 de la *Loi sur les assurances*.

Lignes directrices concernant le recours à la physiothérapie en vue de la récupération fonctionnelle des tissus mous de la colonne vertébrale

DIRECTIVE DU COMMISSAIRE N° 2/97

Partie 1 : Introduction

Les présentes lignes directrices sont émises conformément à l'article 268.3 de la *Loi sur les assurances*.

Elles s'appliquent à tous les accidents survenus le 22 novembre 1997 ou par la suite et ont pour but d'aider les assureurs, les demandeurs et les fournisseurs à comprendre quels sont les services qu'un(e) physiothérapeute pourrait offrir à une personne ayant subi des blessures des tissus mous de la colonne vertébrale dans un accident d'automobile. Elles ne visent nullement à dicter un traitement dans un cas particulier. Elles devraient plutôt servir de guide pour repérer les cas exceptionnels ou pour prendre certains éléments en considération.

I. Préambule

Le succès de la récupération fonctionnelle des tissus mous suite à une blessure dépend, d'une part, de la rapidité avec laquelle la gravité de la blessure est évaluée et, d'autre part, de la possibilité pour la personne blessée d'accéder à un traitement d'un bon rapport coût-efficacité. Une bonne prise en charge de la personne blessée et la reprise la plus rapide possible par celle-ci de ses activités normales, y compris professionnelles, exigent un effort de coordination concerté entre toutes les personnes concernées, notamment en matière de communication. La partie 3 du présent document résume les lignes directrices concernant le recours aux services des physiothérapeutes et les interventions de ces spécialistes, ainsi que les coûts à prévoir pour des blessures typiques des tissus mous de la colonne vertébrale. Ces lignes directrices vont de pair avec la *Ligne directrice concernant les honoraires professionnels en physiothérapie*, publiée dans la *Gazette de l'Ontario*, qui établit un système de facturation à l'unité (une unité = 15 minutes d'intervention directe par une personne spécialisée en physiothérapie), assorti d'un taux de facturation maximal.

Les présentes lignes directrices ont pour principale caractéristique le fait qu'elles mettent l'accent sur l'évaluation des blessures. Elles visent à déterminer quels sont, d'un point de vue raisonnable, les soins requis jusqu'à ce qu'une personne blessée soit rétablie dans l'état où elle se trouvait avant l'accident ou la blessure, ou encore jusqu'à ce qu'elle ait retrouvé un niveau de fonctionnement optimal dans les circonstances, si un rétablissement complet n'est pas possible. Une autre caractéristique de ces lignes directrices est le fait qu'elles s'appuient sur les publications médicales les plus récentes, de même que sur un consensus d'opinion parmi les spécialistes dans le domaine. Il est essentiel que toutes les parties concernées comprennent bien le but et les limites de ces lignes directrices.

II. Les troubles associés à l'entorse cervicale

L'entorse cervicale, appelée aussi coup du lapin ou coup de fouet cervical («whiplash» en anglais), résulte d'un phénomène d'accélération et de décélération de l'énergie transférée aux vertèbres cervicales. Elle peut notamment se produire chez les personnes voyageant dans un véhicule frappé par un autre à l'arrière ou sur le côté. L'impact d'une telle collision peut entraîner des blessures des tissus osseux ou des tissus mous, dont les signes cliniques varient, d'où l'expression «troubles associés à l'entorse cervicale». Vu qu'elles sont fondées sur l'expérience clinique et compte tenu à la fois de leur aspect pratique et de leur application déjà très répandue, il nous a semblé logique de reprendre la classification des troubles associés à l'entorse cervicale (TAEC) établie par le groupe de travail québécois sur les TAEC, à savoir :

- TAEC I : Plainte de douleur, de raideur ou de sensibilité au niveau du cou seulement. Aucun signe clinique.
- TAEC II : Plainte de douleur au niveau du cou ET signe(s) clinique(s) musculosquelettique(s), y compris la réduction de l'amplitude des mouvements et la sensibilité à la palpation.
- TAEC III : Plainte de douleur au niveau du cou ET signe(s) clinique(s) neurologique(s), y compris la diminution ou l'absence des réflexes ostéotendineux, la faiblesse musculaire et les déficits sensoriels.
- TAEC IV : Plainte de douleur au niveau du cou ET fracture ou dislocation.

Vu que les personnes atteintes de TAEC I, II ou III représentent la vaste majorité de la clientèle des services de consultation externe en physiothérapie, les présentes lignes directrices ne prennent en considération que ces trois stades de gravité.

III. Les lombalgies

Nos lignes directrices concernant le traitement des blessures au niveau des vertèbres lombaires sont basées sur celles en vigueur au Royaume-Uni, ainsi que sur celles énoncées aux États-Unis par la *Agency for Health Care Policy Research* dans ses *Clinical Practice Guidelines on Acute Low Back Problems*. Elles visent uniquement les lombalgies aiguës (autrement dit celles qui ne durent pas plus de trois mois), et plus précisément :

1. les maux de dos non spécifiques, autrement dit les douleurs survenant surtout au niveau du dos qui ne semblent liées ni à la lésion d'une racine nerveuse, ni à une quelconque autre pathologie grave sous-jacente;
2. la sciatique, autrement dit les douleurs irradiant du bas du dos vers les membres inférieurs qui laissent soupçonner une lésion d'une racine nerveuse au niveau de la région lombo-sacrée, se manifestant par exemple par une diminution ou une disparition des réflexes ostéotendineux, une faiblesse musculaire et des déficits sensoriels.

Partie 2 : Données de base

I. Les lignes directrices en matière de traitement

La prise en charge clinique des TAEC et des troubles touchant la région lombaire comporte essentiellement trois éléments : les encouragements quant au bon pronostic de ces affections, la reprise la plus rapide possible des activités habituelles et le soulagement de la douleur. Ces éléments forment la base des interventions cliniques à tous les stades de la récupération, depuis les symptômes aigus, aux symptômes subaigus, jusqu'aux soins prolongés et à la réadaptation. On s'attend à ce que les interventions décrites à chaque stade permettent à la personne ayant subi des blessures de reprendre ses activités normales, dans la mesure du possible, et qu'elles diminuent ou prennent en charge les symptômes de cette personne. Les lignes directrices en matière de traitement des personnes qui présentent des symptômes aigus ou subaigus suite à un accident automobile s'appliquent indifféremment que celles-ci aient repris leur travail ou non. Dans un cas comme dans l'autre, les interventions cliniques seront en principe similaires, exception faite de la promotion d'une reprise rapide du travail auprès des personnes qui sont encore en arrêt de maladie. Il faudra toutefois faire une nette distinction entre les soins de réadaptation et les soins prolongés offerts aux deux groupes de patients, car leurs besoins à ce stade sont très différents.

Si une personne blessée n'est pas en mesure de reprendre ses activités habituelles après la première phase de traitement visant à éliminer ses symptômes aigus, il s'agit de consulter sa compagnie d'assurance et d'obtenir l'accord de celle-ci pour entamer la prochaine phase de traitement. Si la personne n'est toujours pas en mesure de reprendre ses activités habituelles après la deuxième phase de traitement (autrement dit en cas d'incapacité résiduelle), il y a lieu de procéder à une évaluation approfondie de son état. Si une déficience physique devait rendre une reprise des activités habituelles et en particulier du travail impossible, il serait bon de soumettre la personne concernée à une évaluation de sa capacité fonctionnelle. Sous réserve des autres obstacles susceptibles de se présenter, il y aurait alors lieu de poursuivre l'évaluation indépendante (EI) appropriée. Enfin, il est fortement recommandé qu'une personne atteinte d'une incapacité résiduelle après la phase de réadaptation et de soins prolongés soit soumise à une évaluation complète avant d'entamer un autre traitement ou de poursuivre le traitement en cours.

II. Les indicateurs d'une récupération plus lente

Le tableau ci-après énumère les facteurs qui laissent présager une période de récupération plus longue chez une personne atteinte de troubles associés à l'entorse cervicale (TAEC). La présence d'un ou de plusieurs de ces facteurs permet donc de repérer les personnes qui risquent de se remettre plus difficilement d'un accident entraînant des TAEC et pour lesquelles il pourra s'avérer nécessaire de prévoir un traitement plus long et plus agressif.¹

III. Les hypothèses de base

Les lignes directrices concernant la physiothérapie et la récupération fonctionnelle des tissus mous de la colonne vertébrale qui forment la partie 3 du présent document sont basées sur les hypothèses suivantes :

- la conception et la mise en application d'un programme de traitement adéquat pour tous les patients sont soumises à une évaluation initiale préalable de l'état de ceux-ci, conformément aux normes établies par l'Ordre des physiothérapeutes de l'Ontario;
- la liste des interventions cliniques prévues dans les lignes directrices n'est pas exhaustive;
- le chiffre proposé pour la durée du traitement à chaque phase correspond à une valeur caractéristique susceptible de varier d'un cabinet et d'un patient à l'autre; faute d'indicateurs d'une récupération lente, le coût total du traitement devrait toutefois se situer dans la fourchette prévue;
- les intervalles indiqués pour chaque phase, aiguë, subaiguë et réadaptation/soins prolongés (par ex. phase aiguë : 0 à 6 semaines) correspondent au temps écoulé depuis l'accident et sont basés sur le délai ordinaire de guérison des blessures des tissus mous. **Tous les patients ne passeront pas nécessairement tous par chacune de ces trois phases de traitement.**

IV. Les définitions

Traitement de la douleur : il peut prendre la forme de différentes techniques, allant de l'application de froid, de chaleur ou d'ultrasons jusqu'à l'électrostimulation des fibres nerveuses, y compris la manipulation et la mobilisation. L'application de ces techniques va de pair avec des exercices pour accroître l'amplitude des mouvements et la mobilité en général dont le but essentiel est invariablement de soulager la douleur.

Rééducation, exercices adaptés à la blessure : il peut s'agir soit de donner des conseils aux patients sur la manière d'éviter d'autres blessures à l'avenir et de hâter leur récupération, en mettant l'accent sur la prise en charge personnelle à long terme de leur état physique

grâce à des exercices et à un changement de style de vie, soit de les aider à réapprendre à faire leurs activités habituelles, soit encore de leur faire faire des exercices spécialement conçus pour venir à bout de leur incapacité ou du moins l'atténuer.

Réentraînement à l'effort : il s'agit d'un programme de traitement intensif visant à rétablir les fonctions systémiques, neurologiques, musculosquelettiques (force, endurance, amplitude des mouvements, souplesse et contrôle des mouvements) et cardiopulmonaires des patients. Ce programme vise à assurer leur récupération fonctionnelle optimale, afin de leur permettre de reprendre leurs activités habituelles, y compris tout ou partie de leurs activités professionnelles, si possible.

Conditionnement au travail : le conditionnement au travail consiste à faire faire aux patients des tâches réelles qu'ils doivent exécuter dans le cadre de leur travail ou une simulation de ces tâches, afin de renforcer petit à petit leur capacité à reprendre leurs activités professionnelles, alors qu'ils suivent parallèlement un programme de réentraînement à l'effort. Les programmes de conditionnement au travail sont très structurés et axés sur un but précis établi au cas par cas. Ils facilitent la transition entre les soins en phase aiguë et le retour au travail, tout en abordant des questions telles que la productivité, la sécurité, les limites de tolérance physique et les comportements au travail. Ce conditionnement peut se faire en clinique par la simulation des activités professionnelles ou directement sous la supervision de l'employeur, sous forme d'adaptation au travail.

Activités de préparation au travail : il s'agit en fait d'une simulation des activités professionnelles des patients, afin d'améliorer progressivement leur capacité à reprendre leur travail. Ces activités sont organisées parallèlement au programme de réentraînement à l'effort.

Traitement de la douleur chronique : le traitement de la douleur chronique englobe aussi l'amélioration de la capacité fonctionnelle et la modification du comportement des patients.
